FW: Texting to 911 Public records request

Miklethun, Shelby <Shelby.Miklethun@kingcounty.gov>
To: Tim Clemans <tim.clemans@seattlepublicrecords.org>

Tue, Jul 19, 2016 at 6:03 PM

Hello Mr. Clemans. Thanks again for your request. I understand it to be a request for the last email from the E-911 Program Office staff regarding the Text to 911 project. Please let me know if my understanding of your request is not correct.

Please attached the two latest emails. I am giving you both as the latest one is specifically about a potential video for the project and not necessarily about the project itself. Our staff forwarded them, which is why they are in forwarded format. Please let me know if you would like the original emails instead, and I will get those for you. Please note that if I do not hear from you within 30 days I will assume that these records meet your needs and will accordingly close your request.

Please let me know if you have any questions.

Thank you,

Shelby Miklethun
Program Manager
Office of Civil Rights and Open Government
King County Department of Executive Services

Kayreen –

Hope you are enjoying summer in NW.

I'd like to give you the updated news on our end in searching for a company to do the filming. My agency has contacted three companies and is waiting for some information before making a final decision. The holiday is getting closer. My boss will be on vacation until July 11th. We hope to have the final decision very soon.

As soon as the videographer is chosen, will it be ok to review the script once more before we start filming? Not only that but also to check with you to ensure that we have all the information we need for filming.

Have a great long July 4th weekend!

Maybe an hour and a half at a time - seems to be good for my feeble brain - what length of time works best for you gals?

Let's look for what is possible.

I would like to spend a chunk of time with you to better understand our projects. I might be able to start helping sort through some of this – then again I might not – would certainly like to try.

I'll know more next week when Kayreen returns and we map out the next steps. I agree that we need to work towards that goal and while it was realistic when we started, if we find it's not now, we need to change that message... deb

Thanks Deb.

Let's make absolutely certain that we can get this completed by end 2016. I mean this in a supportive way ☺ - just making sure that we know potential obstacles in advance; if you see any coming up.

Ms. Gramer,

Our goal is to have this completed by year end, 2016. Thank you for your support and willingness to provide advocate emails however, they are not necessary at this time. We are very supportive of this technology and understand the needs of the deaf/hh community. We continue to work through our county processes to purchase and deploy the appropriate solution. If you have any other questions, please let me know and I'll do my best to answer them for you ... deb

Hello Ms. Flewelling-

I have been in touch with King county since 2012 and waiting for the text to 911 access to be ready. What is the update and who can I email to advocate for this? The deaf/hh community in King county need this services.

Thank you

Laura
